

Device Naming Convention – will be for the client and printer dictionaries in Meditech 6.0. The total number of digits allowed by Meditech, at this point in time, is 10 characters.

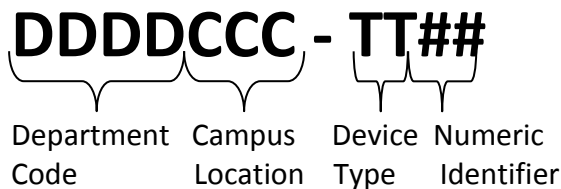

The **Department Code** will consist of 2- 4 characters in length.

The **Campus Location** will consist of 2- 3 characters in length; however the main campus will be null.

The **Device Type** will be up to 2 characters in length.

A **Numeric Identifier** will be assigned to the device to make it unique. The numeric range is from 0-99. The leading zero for 0-9 should be included to make it uniform (i.e. 00, 01, 02, 03, etc); however, it can be omitted to keep the naming convention to a maximum of 10 characters if the other three factors use 9 digits.

The sum total of these four criteria must not exceed 10 characters:

For Examples:

Name	Department	Campus	Device
4N-W01	4N	Main Campus	WinTerm #1
ED-M02	ED	Main Campus	Mobile Cart #2
ICU-ME01	ICU	Main Campus	Mobile Cart for EKG #1
MCH-PL01	MCH	Main Campus	Label Printer #1
HR-P01	HR	Main Campus	Printer #1
UCEC-C12	Urgent Care	East Campus	Computer #12
PTWC-L10	PT	West Health	Laptop #10
UCNC-ME01	Urgent Care	North Campus	Mobile Cart for EKG #1
LABES-C01	Lab	East Syracuse	Computer #1
UCEC-PL01	Urgent Care	East Campus	Label Printer #1
EDES-PRX1	ED	East Syracuse	Prescription Printer #1
